

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Plans and Specifications and Advertisement for Bids for Wastewater Pipe Improvements, Alley South of Locust Street, Washington Street to Cherokee Lane

MEETING DATE: March 15, 1995

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

BACKGROUND INFORMATION: This project will relieve sewage backup problems in the area by replacing 2,000 feet of 6-inch diameter wastewater pipe with 10-inch diameter pipe. All the wastewater services in the alley will be replaced and new cleanouts will be installed.

The project estimate is very conservative due to the depth of the pipe (up to 8 feet deep) and the tight working conditions in the alley. However, we may receive lower bids, hence an additional appropriation is not requested at this time.

FUNDING:	Originally Budgeted:	1992
	Budgeted Fund:	Wastewater Capital Reserve Fund
	Current Appropriation:	\$170,000
	Total Project Estimate:	\$255,000
	Planned Bid Opening Date:	April 5, 1995

Jack L. Ronsko
Public Works Director
